Sanitary Sewer Overflow

Worthington, Ohio (5/5/09): The City of Worthington Department of Public Service is reporting that a sanitary sewer overflow (SSO) occurred in the vicinity of Greenridge Run.

City Crews responded on **5/04/2009** and are cleaning the area and have mitigated the overflow. The best way to protect yourself from possible negative health effects of exposure to untreated sewerage is to avoid contact with the affected area until the City has finished cleaning the area. Signs have been posted in the area warning people of the threat. People should avoid contact with the affected area while the signs are in place.

If you see an SSO, or if you have any questions, please contact: City of Worthington Department of Public Service 431-2425, or visit www.worthington.org
