SUBJECT: June 2020 Income Tax Collection Update

Please find attached the summary reports for income tax collections for the month of June 2020. June 2020 income tax collections are below June 2019 collections by \$505,475 or (17.96%). Year to date collections are below 2019 year to date collections by \$702,784 or (5.17%). Year to date actual collections are below year to date estimates by \$429,992 or (3.23%).

As shown in the month to month comparison below, individual and net-profit collections are driving down revenue. This can be attributed to the move of the due date for both of these type of returns from April 15th to July 15th.

Income tax collections are reported as three different account types: withholding, individual and net profit filers. The following table reflects the year to date revenue received from each of the three components – withholding, net profit, and individuals.
